

Reporting Service Monitoring

Dashboard Description

Dashboard Goals:

The primary objective of this dashboard is to track end-users and analyze their behavior when accessing or interacting with our SSRS Reports.

Metrics:

Execution:

Represents an instance of a user either visiting or exporting a report.

User Count:

The distinct number of users who accessed at least one report during the selected time period.

Active Reports:

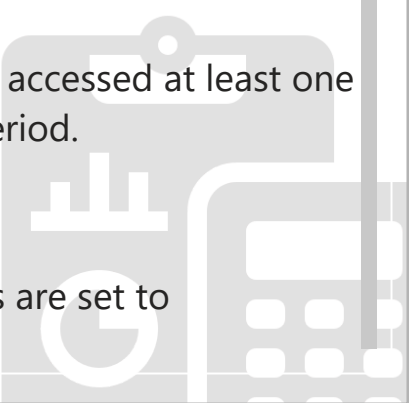

The distinct number of reports accessed by end-users within the selected time period.

Active Users:

The distinct number of users who accessed at least one report within the selected time period.

Access Issue:

Reports where access permissions are set to 'EVERYONE.'
